Deily Di	plary, O/RR, 30 Merch 1951 (AD/RR information unless otherwise stated) situated the meeting of the ADVISORY COMMITTEE ON EXPORT FOLICY, Department of COMMERCE, called to consider the FEASIBILITY OF BARTER TRANSACTIONS FOR THE IMPORTATION OF STRATEGIC CHINESE MATERIALS. At the request of the Department of Defense, the Treasury is presently releasing dollars for the purchase of HOG ERISTLES, WATERFOWL FEATHERS, SILK WASTE, AND TURESTEN. The question is whether the policy should be sufficiently flexible to permit trading either in dollars or commedities, whichever might be more adventagious to the US. from an intelligence standpoint, so long as certain commodities were being exported from the US to the USSR and its Eastern satellities, it would be logical to consider exchanging similar commodities for strategic Chinese meterials. However, to send to China Items that are being denied to the USSR would be insdivisable because (a) it would weaken the US position in requests for parallel action and (b) would supply China with commodities which they probably oculd not purchase with dollars. presented intelligence to support a statement by the OIT member that Commist China is encountering increased difficulty in procuring strategic commodities with dollars. The CHAIRMAN, MADE THE DETERMINATION THAT THERE WAS NO OBJECTION TO ADVISING POTENTIAL IMPORTERS INFORMALLY THAT BARTER TRANSACTIONS WOULD BE CONSIDERED. However, there is to be no public amouncement or no indication as to what beyon deals would be approved.
